HORSE HEALTH SOLUTIONS

Legacy™ with Ester-C®

Legacy™ is a nutritional supplement specifically designed for senior horses. Compounds (Glucosamine and Chondroitin Sulfate) to support the joints, connective tissue and soft tissue are added to Legacy™. Yucca is added as a natural ingredient. Ester-C® and Vitamin E have been added to help as antioxidants and to strengthen the immune system. MSM is also included. Rice bran and yeast culture are included to improve digestive efficiency. Legacy™ is designed to help the older horse remain flexible and comfortable as they age. Often these senior citizens have undergone hard use as equine athletes. While no amount of supplementation, in any form, will return them to their previous physical status, Legacy™ may provide relief to your old friend.

FEATURES & BENEFITS

- Glucosamine and Chondroitin Sulfate—Key nutrients for joint support
- Elevated levels of Ester-C® and Vitamin E—Improved immune response and antioxidant activity
- Pure MSM (100%)
- Yucca—Natural Ingredient
- Rice Bran Based—For palatability and easy feeding
- Yeast Culture—Improve fiber digestion, nutrient absorption

AVAILABLE IN THESE SIZES:

5 lbs	40-day supply for one horse
10 lbs	80-day supply for one horse
20 lbs	160-day supply for one horse
40 lbs	320-day supply for one horse

HylaRx™

HylaRx™ is an oral supplement containing hyaluronan in a gel base for all horses. Hyaluronan (HA) is a polyanionic nonsulfated glycosaminoglycan. It is part of the make-up of synovial fluid and articular cartilage in joints. HA is responsible for the viscosity and elasticity of synovial fluid. Oral HA is administered either by an oral syringe or liquid to dress. Positive results are usually seen in 10-14 days. HA may be used in conjunction with joint intra-articular, specific orthopedic surgeries, or to extend the effect of injectable HA's.

FEATURES & BENEFITS

- Hyaluronan—Key nutrient for cartilage formation and joint health
- Gel formulation—Easy and effective route of administration
- Multiple dose syringe—Six day supply HylaRx™ Gel
- Hyaluronan—Key nutrient for cartilage formation and joint health
- Liquid formulation—Very palatable, easily given
- Large liquid size—Sixty four day supply

AVAILABLE IN THESE SIZES:

Syringe Gel	6-day supply for one horse
Liquid	64-day supply for one horse
